4 March 2025

## New Tailings Filter Presses Arrive at Mine

**Perth, Australia:** Alara Resources Limited (ASX: AUQ) (**Alara** or the **Company**), a base and precious metals producer and explorer with projects in Oman, is pleased to announce that two tailings filter presses (**TFPs**) ordered from China have arrived at the Al Wash-hi Majaza copper concentrate production plant.

### Highlights

- **Interim new filter presses arrived on site and undergoing inspection**
- **Civil and structural works to facilitate installation due for completion mid-April 2025**
- **Commissioning scheduled for mid-May 2025**

Alara has previously announced the purchase of two TFPs from China to augment production capacity at its Al Wash-hi – Majaza copper concentrate production plant. This order was placed following issues with the filter press installed as part of initial plant construction.

The new TFPs have now arrived at the Al Wash-hi plant and will be installed to operate in parallel. The site operations team is inspecting the equipment to verify conformity with specifications and finalise the installation and commissioning plan.

Certain civil and structural works are required to house the new TFPs. This work commenced earlier and is due for completion by mid-April 2025. Subject to confirmation that the TFPs conform to specifications, they are scheduled to be commissioned by mid-May 2025.

### About Alara Resources

Alara Resources Limited (ASX: AUQ) is an Australian-based precious and base metals producer and explorer.

Alara is currently focused on operating the Al Wash-hi Majaza Copper-Gold mine and concentrate production facility in Oman. The Company is also continuing exploration activities at its other Omani projects, including the Block 7 exploration licence under the Daris JV, the Mullaq and Al Ajal exploration

licences under the Al Hadeetha JV, the Block 8 exploration license under the Awtad Copper-Power Metal JV and the recently awarded Block 22B exploration licence under the Al Hadeetha Mining LLC JV.

Alara's mission is to become a mid-tier minerals producer which will deliver maximum shareholder value through profitable growth driven by low-cost, sustainable operations.
