OMAN PROJECTS UPDATE

Perth: Alara Resources Limited (ASX: AUQ) (**Alara** or **Company**) wishes to provide a general update on its Daris/Washihi Copper-Gold Project in the Sultanate of Oman.

Alara is pleased to confirm that the newly established Public Authority for Mining in Oman has recently renewed the term of the Exploration Licences for the Washihi, Mullaq and Al-Ajal tenements for one year. The annual renewal of the Daris (Block 7) Exploration Licence is in progress.

The five Mining Licence applications (totalling 10km²) within these Exploration Licence areas are currently under review by the Public Authority for Mining.

Alara previously announced the results of its Advanced Scoping Study in Oman¹. Given the robust nature of the study outcomes and the additional upside potential for the project there are a select number of immediate and very positive ways forward at this time.

The relative merit and funding for each of these options is currently under review and will be concluded with the Joint Venture partners and their respective Boards/review committees in the near future.

The Company will provide more detailed comments about the result of the current work and reviews in the near future.

– ENDS –
